Atlanta builders this solar passive design includes a perfect aspect, 5.9kw solar system, cross ventilation, water tanks and wide eaves all helping to moderate the temperature and reduce power bills to zero. This quality property combines high ceilings with spotted gum floors, granite tops throughout, three car garage and a wonderful mix of building materials.

There is also potential to expand with a current approval in place to build a dual occupancy and possible subdivision.

All the work has been done here and the property and its gardens will only improve with age. Be sure to contact Gary or Todd to arrange viewing today.
